Who We Are

Seaside Health System is dedicated to helping individuals stabilize, recover, and thrive. We provide a full continuum of mental health and substance use treatment designed to meet patients where they are and guide them toward healing. Each treatment plan is individualized and delivered in a safe, structured environment. We use a multidisciplinary approach with all therapies provided under the direction of a psychiatrist, medical physician, nurses & social workers. We are here every step of the way to help you!

Inpatient Psychiatric Care

We provide acute, around-the-clock care for adults in crisis who require a safe, structured environment for psychiatric stabilization and treatment.

Our inpatient services are designed for individuals facing severe mental health symptoms, co-occurring conditions, behavioral health emergencies, or those in need of medical detox.
